COMPANY PROFILE

ABOUT US

PG Group is a part of one of the biggest capital groups in polish renewable energy sources industry. Company specializes in production of free standing and roofing fixing systems dedicated for photovoltaic installations.

What makes PG group stand out are original and patented solutions, positively impacting simplicity and time of assembly, rich, still expanded offer of support constructions and hundreds of implementations across whole Europe.

HOW WE WORK

SALES DEPARTMENT

He will prepare a customized quote for your installation system. If the need for consultation arises, you can make an appointment with a consultant at the implementation site.

DESIGN DEPARTMENT

The design team will receive all the guidelines, which will be created after consultation with the commercial department. Once the work is completed You will receive the design of the mounting system for approval.

PRODUCTION

Once the formal issues of your order are completed, the project will go to our production facility. We will prepare your order even within a few days.

OUR FOCUS

In the process of creating our products, we focus on quality and adaptation to a variety of conditions. The solutions we offer take into account the variety of roofing materials. The best showcase of our work is satisfied customers. We are characterized by an individual approach to each submitted offer and efficient implementation of business processes.

We have managed to find the golden mean between high quality and affordable prices. We can boast of production 100% made in Poland. All our employees work for the reputation of high level of the photovoltaic market in our country.

WHY CHOOSE PG GROUP?

MATERIAL QUALITY AND DURABILITY:

Our constructions are made out of Magnelis[™] coated steel. Zinc-aluminum-magnesium coated flat carbon steel assures first-class corrosion protection.

FAST AND EASY ASSEMBLE:

Screwed construction. Assembly holes adjusted for montage with patents not requiring opposite-side access. Pieces fit regardless of their orientations minimizing assembly mistakes.

UNIVERSALITY:

Construction adjusted to different size PV panels. Possibility to change panels even on the early stages of constructure manufacturing within specified size range differences up to few or dozen millimeters are not a problem for us.

POLISH PRODUCT:

Proudly designed and manufactured in a state-of-the-art technology park.

A photograph of four business professionals in a modern office setting. A man in a dark suit stands on the left, looking towards a woman in a grey blazer who is seated at a wooden conference table. A man in a blue suit is seated at the table, shaking hands with the woman. A woman in a dark pinstripe suit stands on the right, smiling. The background shows large windows with a city view.

WHY INVEST?

Invest in Digital Assets: owning a digital assets is the smartest way to own a part of the future. Our investors are really smart because not only do they own investments that yield high returns, but their investments also grant them ownership of the future.
